Echinococcus in California. By J. R. Snyder, M. D.....	294

ENTERED AT SAN FRANCISCO, CAL. AS SECOND-CLASS MATTER

JUST READY—NEW (7th) EDITION

Da Costa's Modern Surgery

INCLUDING SURGICAL DIAGNOSIS

So much new matter was added in this revision that the book had to be *reset from cover to cover*. To keep the book within reasonable bounds, however, the page was made seven lines longer and slightly wider, so that *new matter equivalent to 250 pages* has been added without greatly increasing the number of pages. You get in DaCosta's Surgery not only the principles and practice of surgery and an operative surgery, but a *surgical diagnosis* as well. It is a *surgical encyclopedia*.

In this new edition you get every surgical advance—whether in the field of surgical bacteriology, antisepsis, serum diagnosis and therapy, or operative technic. Specially important is the new matter on serums and vaccines, including such matter as salvarsan, neosalvarsan, gonococcus serum, etc. The article on shock, including Crile's *anoci-association operation*, gives you many valuable helps in preventing this surgical after-effect. Over 225 pages are given over to *abdominal work*, including the Mayos' newest technic, Murphy's treatment for suppurative peritonitis, etc. Tumors cover 75 pages, and include such matter as Coley's fluid, serum reaction in carcinoma, inoperable cancer, x-rays and radium, fulguration, etc. Under bone and joint surgery you get the newest work on transplantation, formalin-glycerin injections, operative treatment of simple and compound fractures, non-union of fractures, etc. Over 150 pages are devoted to genito-urinary work. Surgery of the pituitary, thyroid, thymus, and carotid glands is completely given in the light of the latest research work. Every form of general and local *anesthesia* is discussed. *Minor surgery* receives unusually full consideration.

Octavo of 1515 pages, with 1085 illustrations. By J. CHALMERS DA COSTA, M.D., Samuel D. Gross Professor of Surgery, Jefferson Medical College, Philadelphia. Cloth, \$6.00 net; Half Morocco, \$7.50 net.
